EXPERIENCE

Base Camp Digital | Middleware Engineer - Singapore **June 2025 – Present**

- Spearheaded **migration from Red Hat SSO (RHSSO) to Red Hat Build of Keycloak (RHBK)** and managed **20+ enterprise RHBK clients across 2 realms**, handling end-to-end application maintenance and resolving production support tickets.
- Collaborated cross-functionally to support colleagues with **Crystal Reports module maintenance** and led internal **AI enablement and agentic workflow training** to accelerate engineering productivity.

Percept Solutions | Software Engineer - Singapore **May 2023 – May 2025**

- Managed comprehensive **RedHat SSO IAM solution** across multiple AWS EC2 instances in 4 environments (Dev, UAT, STG, Prod), serving **12+ enterprise clients and 200K+ users.** Resolved daily L2/L3 support tickets covering service account management, client onboarding, identity provider integration, custom UI development, and Users/Roles/Groups Lifecycle management. Implemented **Keycloak (RHSSO) customizations** that **improved customer satisfaction by 40%** through enhanced user experience and security features.
- Designed and deployed **branded login/signup/account interfaces** across all environments while maintaining consistent client branding standards. Developed **robust testing and automation scripts using JMeter** for performance validation and pre-deployment verification. Successfully implemented **SAML 2.0 integrations** with internal Azure SSO and external identity providers including **Singpass and Corppass**, ensuring seamless authentication workflows.
- Led critical security initiatives including **CSP vulnerability remediation** and patch implementations with direct coordination with RedHat SSO support teams. Successfully orchestrated **version upgrade from RH SSO 6.5 to 7.x** with minimal service disruption. Established and maintained **security best practices** across all environments, significantly enhancing system resilience and regulatory compliance while ensuring continuous service availability.
- Deployed robust AWS cloud solution with 4 microservices and 2 React portals, featuring **UOB bank integration for seamless multi-million dollar transactions** across multiple payment methods (FAST, PAYNOW, GIRO, MEPS). Managed 10 user roles, **integrated critical BPM flows with Business Central for external auditing,** and implemented comprehensive audit systems for monitoring user actions and financial transactions

ZOHO | Member Technical Staff – Chennai, India **July 2020 – April 2023**

- Led **35+ high-impact projects** for the Endpoint Central suite, managing development through support for 3 modules while resolving 15+ tickets daily. Provided **L4 support** through detailed documentation, call consultations, and remote desktop sessions, successfully resolving **350+ support tickets** and conducting **120+ client consultations** that significantly enhanced customer satisfaction and team efficiency

EDUCATION

Anna University, Chennai | B.Tech (Honours)
2016 – 2020
Faculty of Technology | CGPA: 8.42

- **President of the Student Quality Council**, Anna University (Mar 2018 – Mar 2020): Led and mentored 150+ students in organizing numerous events, enhancing the campus community.

SKILLS & ABILITIES

- **DevOps & Cloud:** Red Hat Build of Keycloak (RHBK), Red Hat SSO, AWS, Google Cloud, Azure Cloud, Zoho Cloud, Vercel, Docker, Git, Azure DevOps, Tyk API Hub, Supabase
- **FrontEnd & UI:** HTML, CSS, Sass, React.js, Next.js, Flutter, Tailwind CSS, Material UI, shadcn/ui, StoryBook
- **Programming Languages:** Java, Python, Dart, SQL, JavaScript, TypeScript
- **Testing & Automation:** JMeter, Postman, Wireshark, Packet Sender, Fastlane, GitHub Actions
- **Backend & Services:** Node.js, Spring Boot, Hibernate, JUnit 5, Jersey, Kafka, Flask, FastAPI, Pydantic, Crystal Reports
- **Tools & Suites:** MS Office (Word, Excel, PowerPoint, Outlook, Teams), Zoho Suite, Payload CMS, Strapi, Plasmic, Sigma, RevenueCat
- **Databases:** Postgres, MySQL, MSSQL, MongoDB, Firebase
- **AI Agent Integration & API Development:** OpenAI, Anthropic, Gemini, Meta Muse, DeepSeek, Llama, HuggingFace, Nvidia NIM, ElevenLabs

ADDITIONAL

- **Extracurricular & Hackathons:** Built LangCity (AI-powered pixel-art Japanese-learning RPG in Flutter/Flame/Supabase/RevenueCat across iOS, Android, Web & Desktop for **RevenueCat Shipaton**) and OpenBixel (open web pixel-art & sprite toolkit); active builder in **RevenueCat Shipaton**, **PayPal AI Hackathon**, and **Meta Muse Global AI Developer Hackathon**.
- **Languages:** English (Fluent), Tamil (Native), Malayalam (Communication Only)
- **Hobbies & Volunteering:** Cooking, Reading, Knitting & Crocheting | Volunteering: Flutter Singapore, Youth Corps Singapore, NLB Singapore
